

ASBESTOS CERTIFICATION FORM

Completed form to be submitted with application for permits which involve demolition and/or alteration of commercial or residential buildings.

Owner's Name _____ Telephone _____

Owner's Address _____
(Street, P.O. Box) (City, State, Zip Code)

Site Address _____

As owner, or owner's agent, of the above building, I certify that the building is exempt from the asbestos inspection requirements of the Virginia Uniform Statewide Building Code for the following reason:

- The initial construction permit for the subject building was issued on or after January 1, 1985; or
- The above building is a single family dwelling, or is a residential housing building containing four or fewer units and the proposed construction or demolition is not for commercial or public development purposes; or
- The combined amount of regulated asbestos-containing material involved in the renovation or demolition is less than 260 linear feet on pipes, or less than 160 square feet on other facility components, or less than thirty five cubic feet of facility components (total volume) where length or area could not be measured previously, and is exempt from asbestos inspection requirements.

If not exempt from inspection, I certify the following:

- The affected portions of the above building have been inspected for the presence of asbestos by an individual licensed by the Commonwealth of Virginia to perform such inspections and that no asbestos-containing materials were found; or
- The affected portions of the above building have been inspected for the presence of asbestos by an individual licensed by the Commonwealth of Virginia to perform such inspections and that appropriate response actions will be undertaken with the requirements of the Clean Air Act National Emission Standard for Hazardous Air Pollutants (NESHAPS) (40 CFR 61, SUBPART M) and the asbestos worker protection requirements established by OSHA (29 CFR 1926.1101).
- The project consists only of repair or replacement of roofing, floor covering, or siding materials which are assumed to contain friable asbestos and that asbestos installation, removal, or encapsulation will be accomplished by a asbestos contractor licensed by the Commonwealth of Virginia to perform such activities.

If abatement actions are taken, I also certify that any asbestos abatement area will not be reoccupied until all response actions have been completed and final levels for reoccupancy of the abatement area shall be 0.01 or fewer asbestos fibers per cubic centimeter if determined by Phase Contrast Microscopy Analysis (PCM) or 70 or fewer structures per square millimeter if determined by Transmission Electron Microscopy (TEM).

Further certification for Schools only: Any local educational agency that is subject to the requirements established by the Environmental Protection Agency under the Asbestos Hazard Emergency Response Act (AHERA) also hereby certifies compliance with 40 CFR Part 763 and subsequent amendments thereto.
